Total points of your bids (≤ 100)		

* In the 2nd column, you place your bids based on your preference on the topics and dates. The higher bid you place, the higher chance you will get them. The total in this column is 100 points.

+ In the 3rd column of No list, you can choose up to 3 items (topic/date) that you absolutely don't want. For example, you can use this to avoid the conflicting date for presentation. It does not cost any point for 3rd column; but you can check only up to 3 items.

Presentation given on 2/16 will receive a 15% bonus, and presentation given on 2/23 will receive a 5% bonus.
